FULL STACK WEB DEVELOPER

I am a Computer Science graduate with a passion for leveraging new technologies like AI to create innovative and user-friendly products. I thrive on researching and implementing creative solutions to complex problems, always paying close attention to detail to deliver the best possible results. Dedicated to continuous learning, I am always eager to expand my skill set and take on new challenges.

EXPERIENCE

Company - Tunis, Manzah   **January 2024 - June 2024**
intern

- End-of-study internship at PlaceHolder in software development using MERN stack. Developed a booking website with three dashboards (host, admin, client).

Iset Beja   **September 2023 --January 2024**
integration Project

- Collaboration with Winshot to create a custom e-commerce quiz, enhancing skills in instructinal design and interactive content using Angular, Spring, and MySQL Workbench

Company - Tunis, Charguia 2   **January 2022 - February 2022**
intern

- During my internship at DigitalBundle, I developed a complete e-commerce application using Flutter. This project involved building a responsive and user-friendly mobile app, enabling customers to browse products, manage their shopping carts, and complete secure transactions.

january 2021 - February 2021

Company - Mutuelville
intern
- Observation internship at Atomi, specializing in software development
